The Kfeirian Family Tree

The Kfeirian Family Tree continues to grow and includes almost 5,100 Kfeirians and their families. Our branches reach 10 generations and the family is spread to countries all over the world.

How You Can See The Tree?

Please send an email to Kevin Donley at kdonley17@gmail.com and he'll give you access to the tree via Ancestry.com. Once you view the tree you can email him any additions and corrections. There are currently 67 Kfeirians who have access to the Kfeirian Tree and requests are coming in weekly.

The DNA Breakthrough!

Consider taking a DNA test. The exciting results will tell you where your ancestors lived and also link you with hundreds of cousins. Many Kfeirians have already taken the test and it's helping us build the Kfeirian Tree.

Go to <http://dna.ancestry.com> to order your DNA test and get started. The price is currently \$99.

Thanks again for attending the Kfeirian Reunion!

It's a big part of keeping our history alive.

Pass the gift onto future generations by helping us learn more about our roots.
